Japanese Sculpt Facial

A 90-minute structural facial treatment designed to restore balance to the face from its foundation.

Using a combination of Gua Sha and specialised manual techniques, this treatment targets facial asymmetry, releases tension in the neck and shoulders, and improves muscle alignment and lymphatic circulation—helping to reduce sagging and enhance overall skin quality at a deeper level.

Tension Release Facial

An 80-minute treatment combining a 20-minute back massage and a 60-minute sculpting facial.

Starting from the back, this treatment helps release tension, improve posture, and address imbalances that can contribute to facial sagging.

By working from the body up, it supports a more lifted and balanced appearance.

Ideal for those who experience jaw clenching, neck and shoulder tension, or postural strain.
